Subject: PRESS RELEASE 07/28/14 - Traffic Signal Improvement at Hwy 9 and Classen

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: July 28, 2014

Contact: David Riesland, City Traffic Engineer, (405) 329-0528,
David.Riesland@NormanOK.gov

TRAFFIC SIGNAL IMPROVEMENT AT HWY 9 AND CLASSEN

Traffic signal repairs will take place this week at the US 77 (Classen Boulevard) intersection with the eastbound ramps to State Highway 9. The City's contractor, Traffic and Lighting Systems, will conduct the repairs. Repairs involve the replacement of a traffic signal pole located in the southwest corner of the intersection. The pole in question was damaged during a traffic collision in April, 2014. Due to the nature of the work, lanes closures may be necessary on the eastbound and southbound approaches to the intersection. Traffic control will be provided to guide motorists safely through the work zone. This work will take place on Tuesday, July 29, 2014, weather permitting. After 9:00 a.m. on July 29th, the intersection may be temporarily controlled by an all-way STOP sign. Full signal operation should be restored at the intersection by no later than 2:00 p.m. on the same day. Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528 or David.Riesland@NormanOK.gov.
